Omar Villafranca, omarvillafranca@cbs.com, 682-218-8847

I've asked about his deadline, and will let you know when he gets back to me. They plan to air story today, and were considering doing a live feed from the road near San Jacinto site (off site).

Mr. Coleman mentioned that they were going to do some testing at the San Jacinto site (soil/water). How long before that testing is done, and how long before results are back?
